

## Route Details

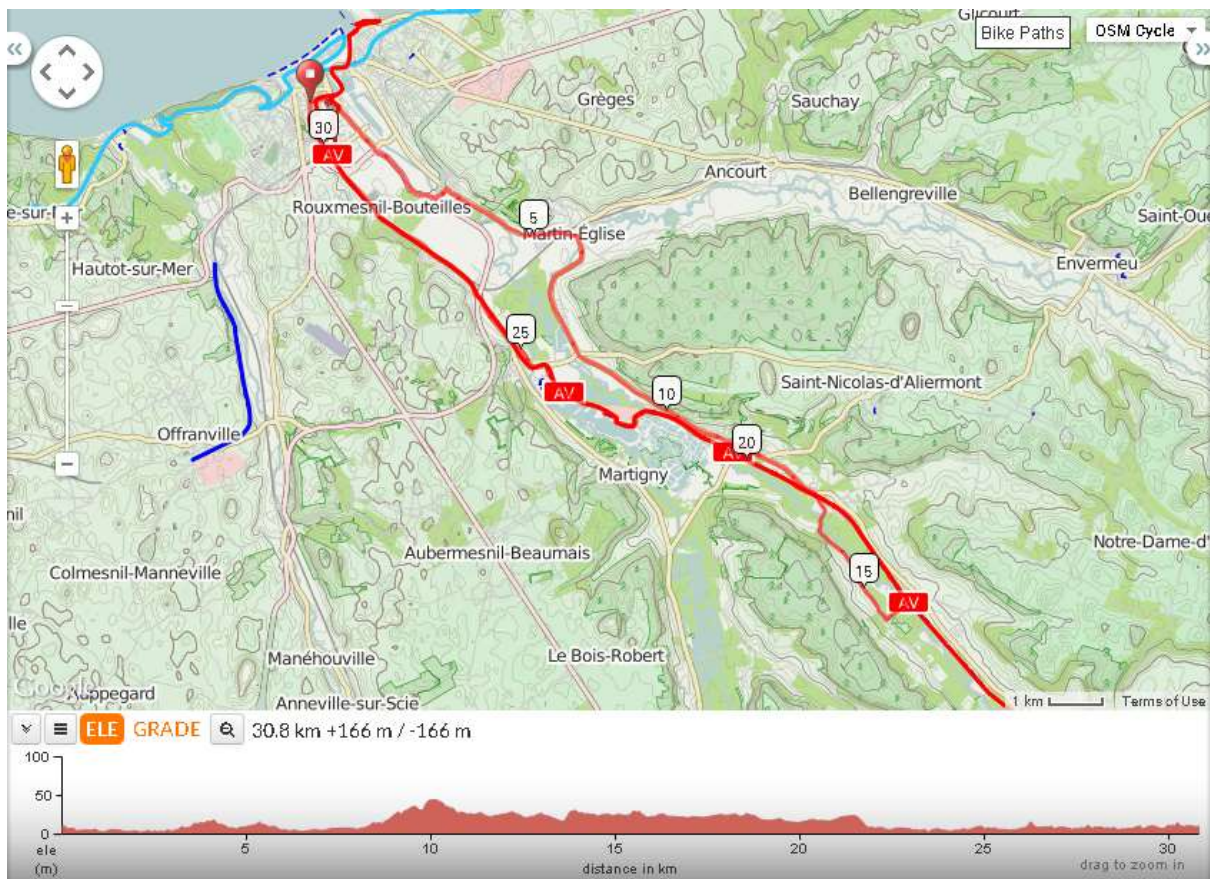

In the past I have always translated the French route details into English. Unfortunately this has not been possible this year. However, earlier this year the routes were published on our Facebook page.

The information below has thus been extracted from those Facebook messages. It does not contain any additional information. If I get route sheets then I will make them available on the website.

The link for each of the rides will allow you to view more detailed information about the route and zoom into the maps. If you select the Export option on the right of the screen then I believe you should be able to download gpx files.
